OBJECTIVE

Dedicated Computer Science student specializing in Data Science with strong foundations in Java and MySQL. Passionate about building scalable applications and solving real-world problems. Seeking to contribute technical expertise while continuously learning.

SKILLS

Technical Skills:

- **Programming Languages:** Java, Python
- **Database:** MySQL
- **Frontend:** HTML, CSS, JavaScript
- **Machine Learning & Libraries:** NumPy, Pandas, Scikit-Learn, Seaborn, Matplotlib
- **Tools:** Power BI, VS Code, IntelliJ IDEA
- **Core Subjects:** Object Oriented Programming (using Java), Database Management System

Behavioral Skills: Leadership, Team Collaboration, Problem Solving, Communication, Adaptability

Languages Known: English (Fluent), Hindi (Fluent), Bengali (Fluent)

EDUCATION

Techno Main Salt Lake — **2022 – 2026**
Bachelor of Technology in Computer Science and Engineering (Data Science) *(CGPA: 7.90)* — Howrah, India

Howrah Vivekananda Institution — **2022**
Higher Secondary Education *(Percentage: 80.2%)* — Howrah, India

Howrah Vivekananda Institution — **2020**
Secondary Education *(Percentage: 86.85%)* — Howrah, India

EXPERIENCE

EDUNET - MICROSOFT FOUNDATION ARTIFICIAL INTELLIGENCE & MACHINE LEARNING INTERN | Certificate

- Successfully completed a 4-week internship on the Foundations of Artificial Intelligence & Machine Learning from April 10, 2025, to May 10, 2025, a Microsoft initiative implemented by the Edunet Foundation in collaboration with the All-India Council for Technical Education (AICTE).

INFOTACT SOLUTIONS – DATA ANALYTICS INTERN | Certificate

- Completed a 2-month internship in Data Analytics from September 25, 2025, to November 25, 2025, conducted by Infotact Solutions.
- Gained hands-on experience in data analytics through projects involving data collection, cleaning, analysis, and interpretation, showcasing strong problem-solving abilities.

PROJECTS

Bank Management System | Java, MySQL | Link

- Built a secure and efficient system for managing bank accounts, transactions, and records, reducing the need for manual processing.
- The system supports account creation, deposits, withdrawals, balance checks, modifications, and deletions, using file handling to store and retrieve data accurately.
- Ensured modular and maintainable code using OOP principles.

Retail Sales Forecasting | Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn | Link

- Developed a machine learning model using Random Forest to predict weekly Walmart store sales based on historical and economic data, aiding inventory and revenue planning.
- Performed data preprocessing, feature engineering, and model evaluation.
- Improved prediction accuracy, supporting business planning and inventory management.

Edu-Connect Web-Based Educational Management System | HTML, CSS, JavaScript, NodeJS, Machine Learning | Link

- Developed a full-stack web application with role-based dashboards (student, teacher, admin)
- Implemented features like attendance tracking, assignment management, and performance analytics
- Integrated machine learning module for student performance prediction
- Ensured responsive UI and smooth user experience

CERTIFICATIONS

- **Programming using Java – Infosys Springboard | Link**
- **Database Management System – Infosys Springboard | Link**

ACHIEVEMENTS

- Represented school at district-level cricket tournaments (U-14 and U-17 categories)
- Secured **WBJEE Rank 16,235 among 1,00,000+ candidates**
- Demonstrated teamwork, discipline, and leadership through competitive sports participation
